Campaign Name & Brief

Campaign Name: Target Wild Fable — *Autumn on Madison*

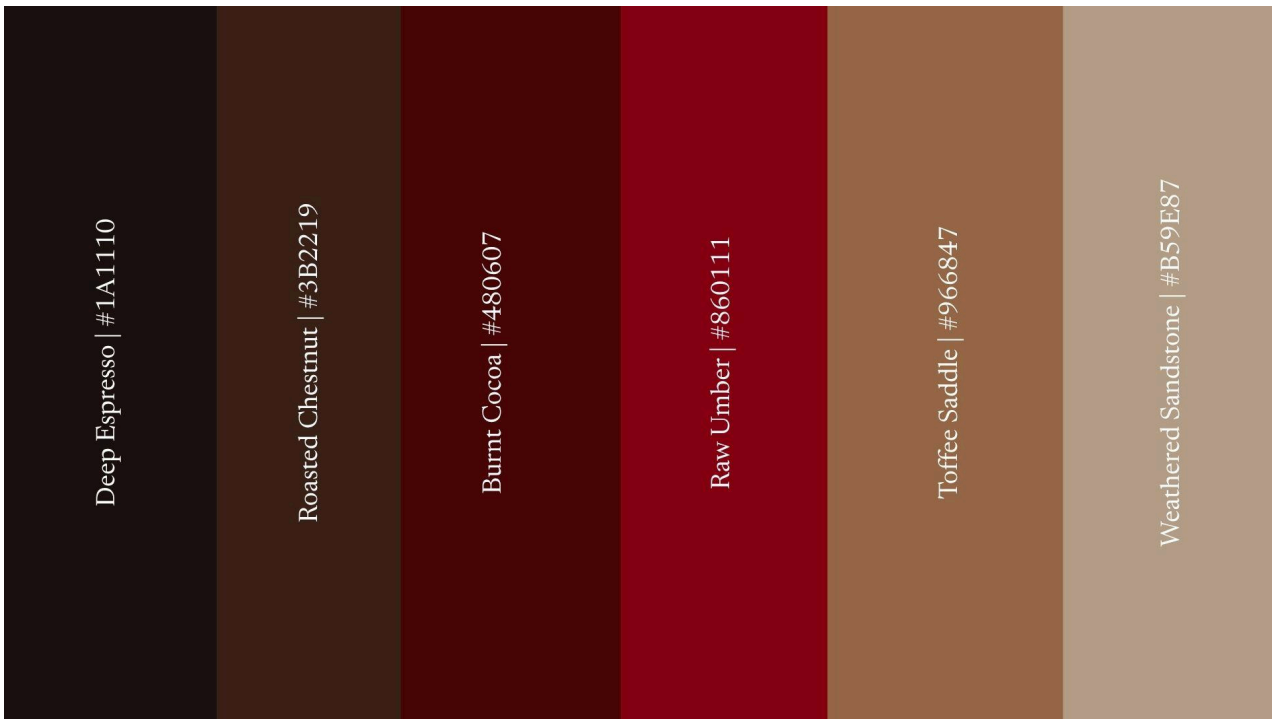

Brand / Client: Target Corporation × Wild Fable

Brief: The *Autumn on Madison* campaign positions Target's youth fashion label, Wild Fable, at the intersection of collegiate dark academia and vintage Manhattan street style. Centered around Upper East Side brownstone corridors (Madison Ave & E 68th St), the campaign celebrates tactile autumn textures: ribbed knit cardigans, pleated tartan wool skirts, Mary Jane leather shoes with slouch socks, and analog 35mm film photography. It bridges accessible Gen-Z streetwear silhouettes with nostalgic, classic campus living.
